LOOK OUT FOR MALARIA.

An epidemic of Malaria is sure to follow the wet season and the high waters which have prevailed all over the South. Malarial and kindred fevers will develope to an alarming extent. General health conditions will be bad; every precaution should be taken.

The System Must Especially Be Fortified to Rosiat Malerial Attacks.

A trial of fifty years has demonstrated that for this emergency, Dr. Harter's Iron Tonic has no equal. Iron is the fighting element in the blood, and the kind of iron supplied by Dr. Harter's Iron Tonic is just the kind the system requires to successfully combat tem. On the other hand, quinine dis- fired. turbs the system and its cumulative than those it is employed to remedy.

Story of Effectual Calling. The minister of New St. Andrew's church in New Glasgow, Nova Scotia, had offered a prize to a class of young girls in his Sunday school who would repeat from memory the whole of the Shorter Catechism, says the Scottish American. Several of them were careful and received the prize. Very shortly after the minister, Mr. Robertson, received a call from a congregation in Newfoundland, which he accepted. He was gone for three years and then came back on a visit. At the home of one of his old parishioners he met the young girl who received the first prize-now grown up into a young lady, fresh 'from the Ladies' College-and while ahe was entertaining the company with classical selections on the piano, Mr. Robertson stopped her and said: "Now, missy, I fear that with all this you have forgotten the catechism. I will ask you a few questions. What is 'effectual calling?" "Effectual calling?" said she, hesitating but a moment. "Why, it was the call you received from Newfoundland." Curtain.
